

Qatar is the smallest country ever to host a FIFA World Cup but it is home of traditional Arab hospitality and the 2022 FIFA World Cup will be like no other.

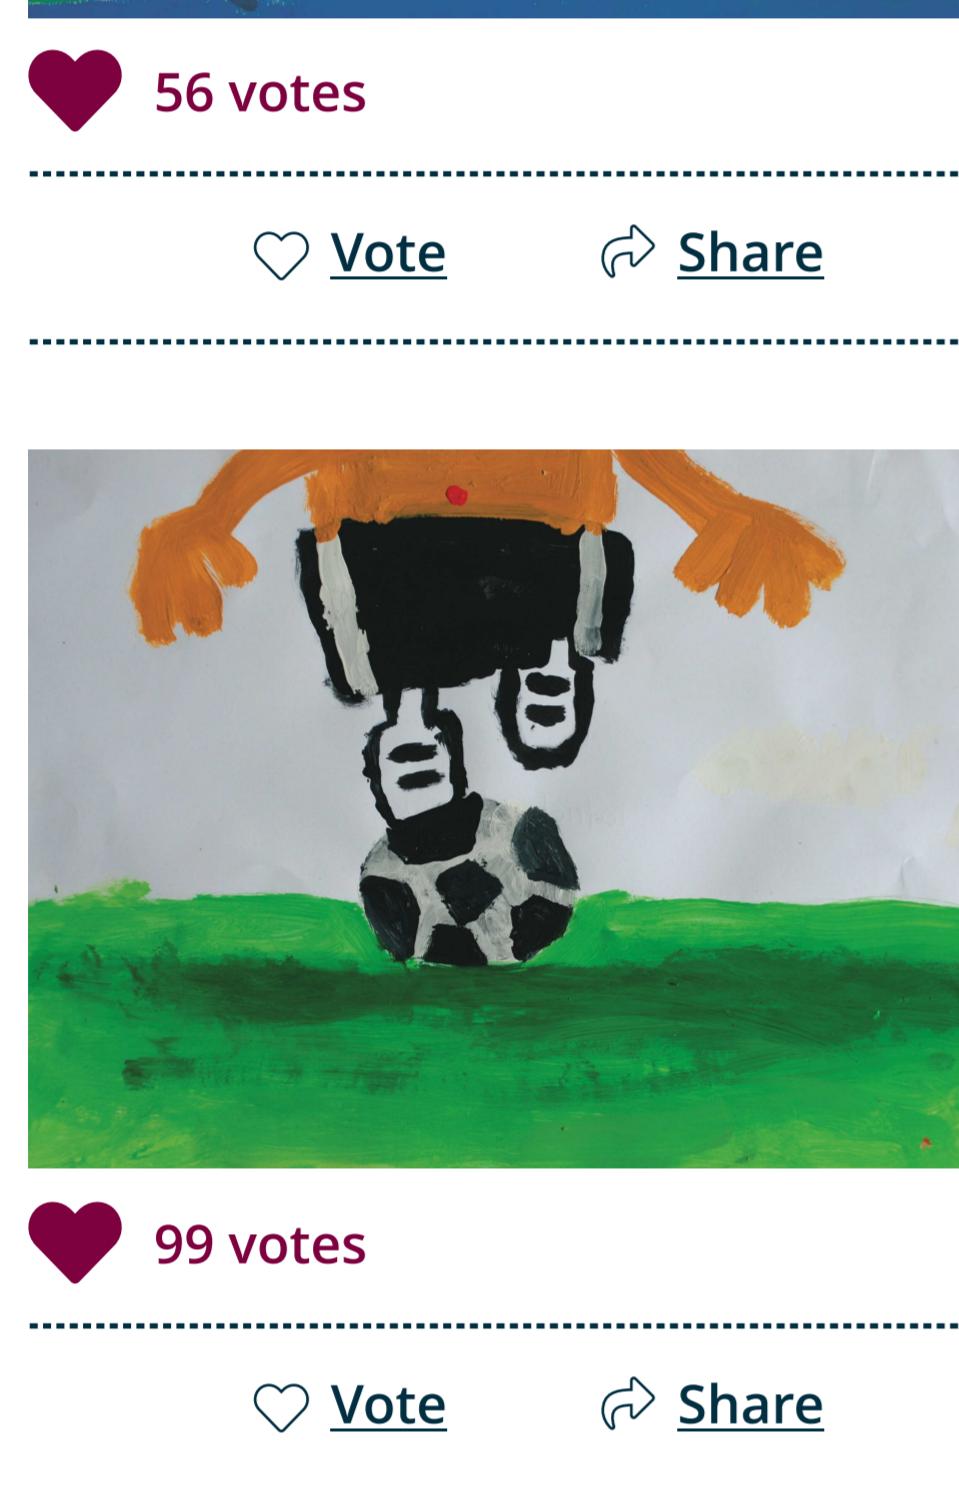

World Children's Festival is providing you an opportunity to virtually participate in the Qatar 2022 World Cup by creating and sharing your artwork on the theme "I Love Soccer".

"Sport has the power to change the world, the power to inspire, the power to unite people in a way that little else can. Sport speak to people in a language they understand. Sport can create hope where there was once only despair. It is an instrument of peace, even more powerful than governments."

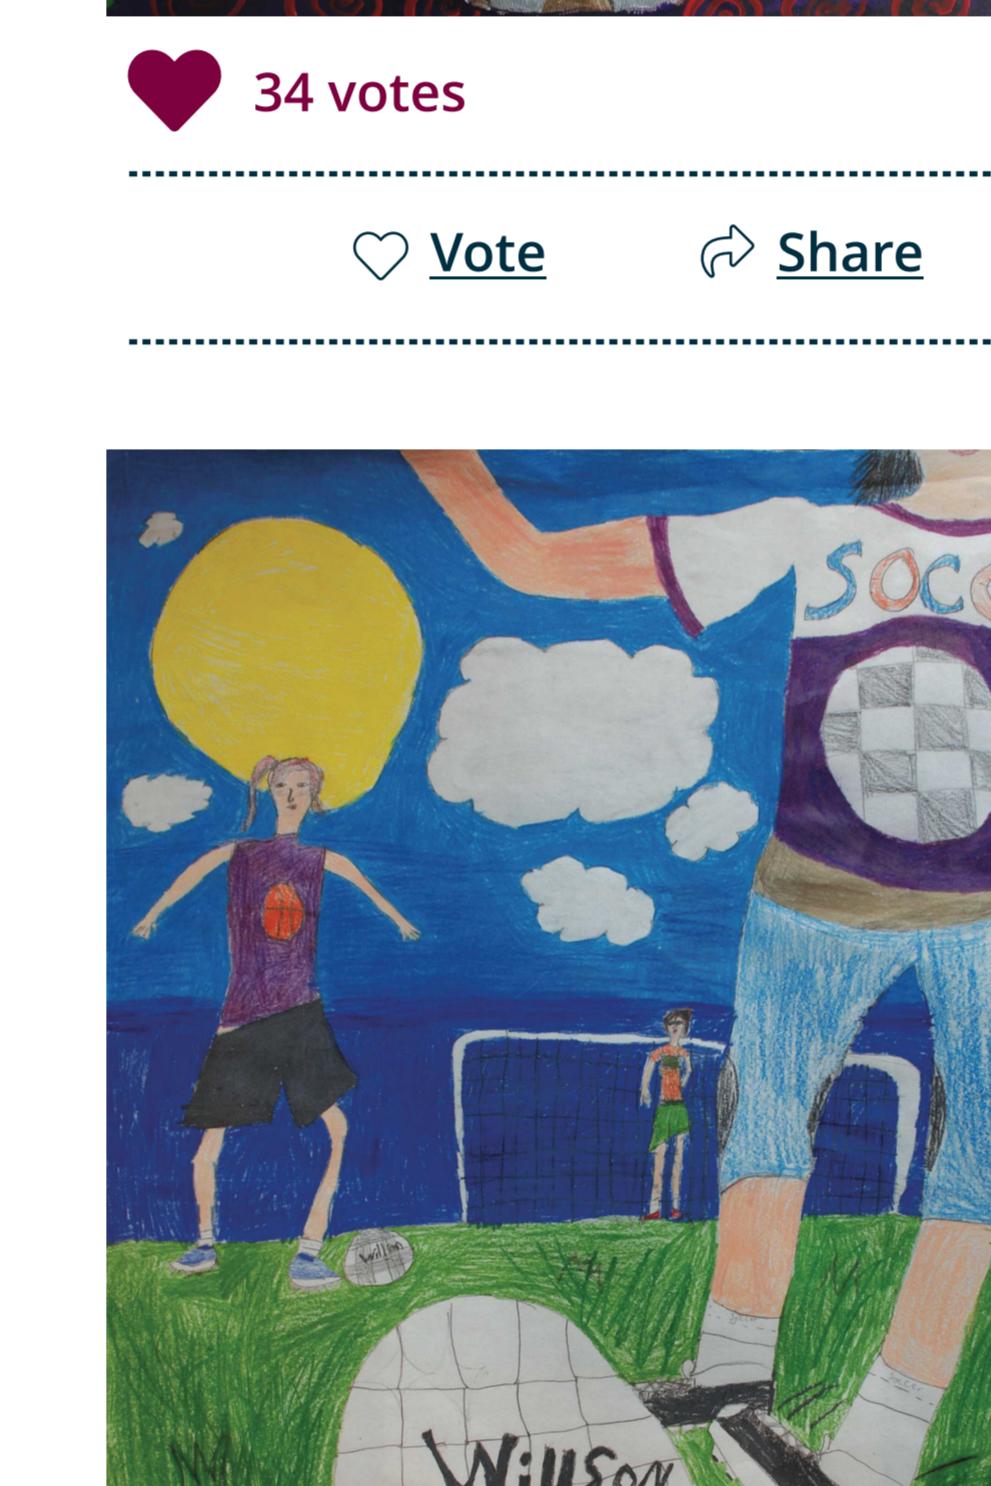

- Nelson Mandela

Qatar invites artists and creatives to join this movement for global peace and national harmony.

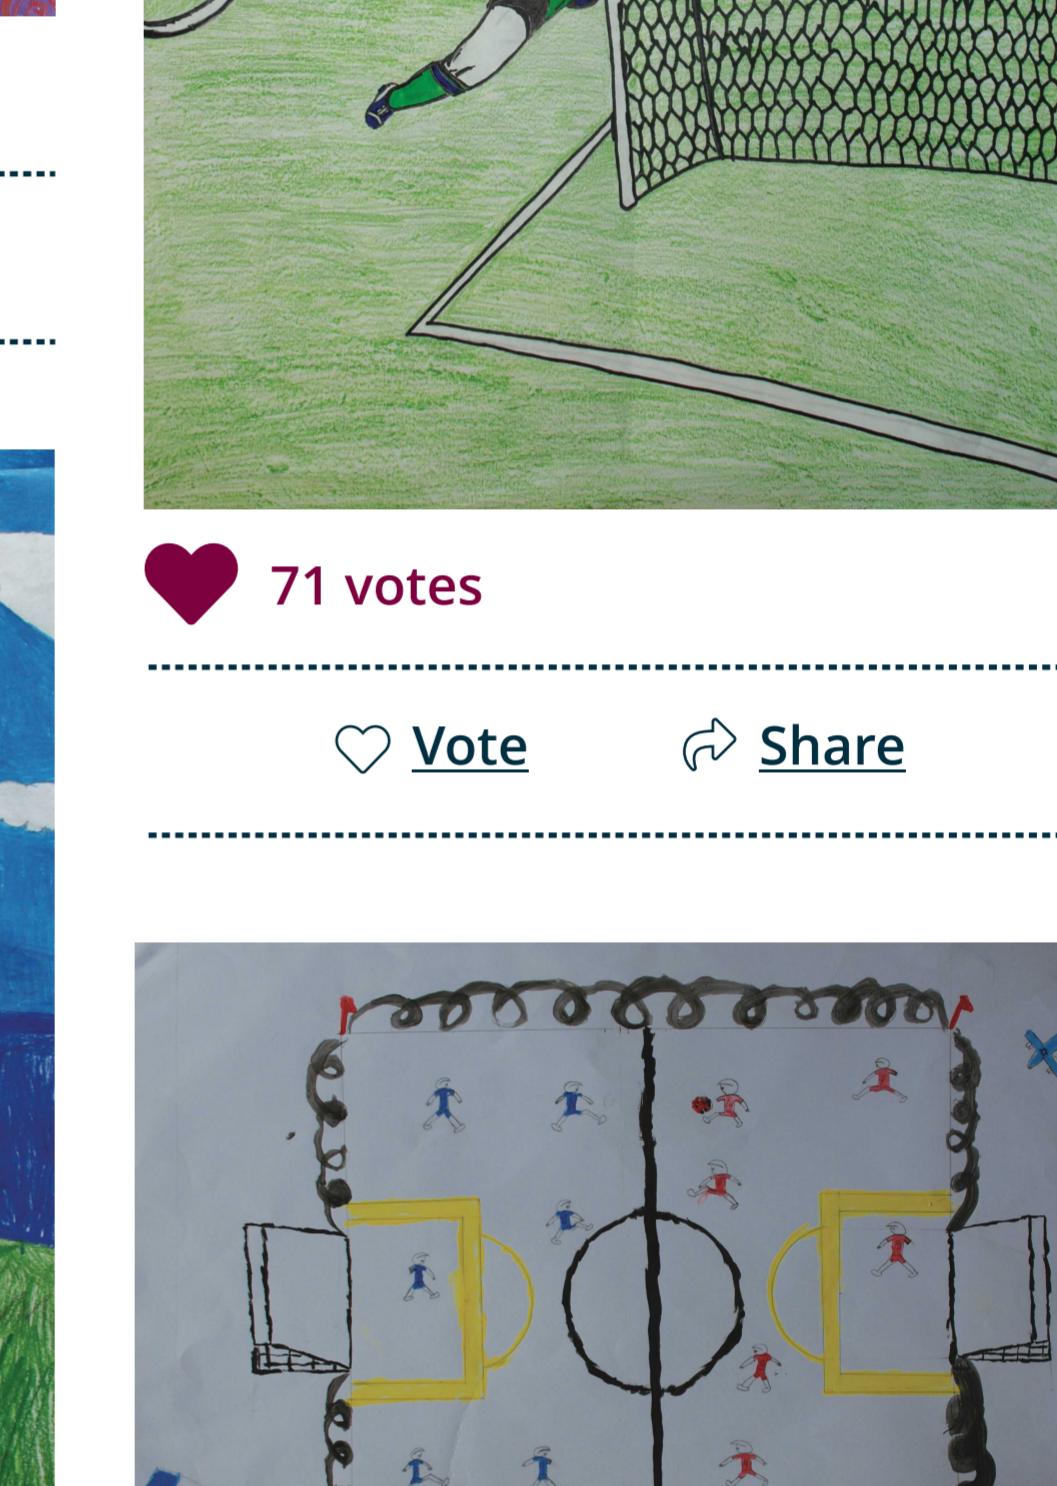

See how kids near and far express their love for soccer. Vote for the best and let the world know.

I Love Soccer

Check for events in your city and learn what others are doing around the world.

We Love Soccer Events

Create your own "I Love Soccer" artwork and share it with the world to win a prize for yourself.
